## Night at the Kasbah

This ethnic tablescape design is a mixture of Persian and Moroccan influence. White and magenta accented with silver, a new trend in Europe, is seen in the linen, flowers, votive candles, Moroccan tea glasses and even the favors. White is an important color in Persian weddings and the bright magenta is from the Moroccan weddings. Bright pink peonies accent each placesetting and the bird's nest dessert adds to the Persian flare.

**COORDINATOR** WEDDING ELEGANCE
